

# **ADVANCED COUNTRY ANALYSIS & FORECAST**

UNPARALLELED RISK ANALYSIS AND ECONOMIC FORECASTS FOR OVER 200 COUNTRIES

Advanced Country Analysis and Forecast provides a clear view of the risks and opportunities of doing business worldwide.

- Same-Day Analysis of all significant news, events, and data releases
- Instant, customizable access to historical data and 30-year forecasts
- In-depth country reports spanning the political, economic, legal, tax, operational, and security environments of every country
- Unique, customizable Country Risk Ratings and Sovereign Risk Ratings

UNPARALLELED RISK ANALYSIS AND ECONO

Advanced Country Analysis and Forecast provides Same-Day Analysis of world events, allowing you to identify how your business will be affected. The service also provides detailed country reports, proprietary risk ratings, and comprehensive economic forecasts and historical data to help your business assess its investments and future growth.

#### STAY INFORMED OF THE LATEST DEVELOPMENTS

- Same-Day Analysis highlights \_ all business environment and economic performance-related developments worldwide
- Customized E-mail Alerts tailored to your interests
- Topics range from elections to economic data releases, regulatory changes, and security threats
- Tightly structured Significance sections highlight forecast and risk implications
- Searchable archive back to 1998
- In-depth Special Reports explore key themes

## COMPREHENSIVE COUNTRY REPORTS

Gain a clear view of the business environment across six major risk areas — political, economic, legal, tax, operational, security — as well as the reasoning behind our forecasts:

- Flexible formats: Excel, Word, PDF, as well as hard-copy publications
- Constantly updated content, in line with Same-Day Analysis and forecast releases
- Concise summaries of the latest situation and outlook
- Tightly structured sub-sections covering all factors relevant to foreign investors

 Live data tables integrated with text for immediate access to key indicators MIC FORECASTS FOR OVER 200 COUNTRIES

## TWO UNIQUE RISK SYSTEMS

IHS Global Insight's two proprietary risk rating systems are used by businesses globally to identify Foreign Direct Investments (FDI) and financial risks and to build future strategies. Both systems include sophisticated customization and download tools.

**Country Risk Ratings** cover the full range of macro-level issues that determine FDI decision making. Available for all 204 countries, they mirror the six-factor structure of the country reports and allow inter-country and historical comparison.

**Sovereign Risk Ratings** assess the solvency and liquidity of all 204 countries, as well as pertinent economic and
